The 200 throbs hearts with a V-8 engine, jumps on plane, hangs true and tight in the turns, does so handily, while creating surprising fuel efficiencies. Cobalt utilizes Free Space Reclamation (FSR) to maximize interior space in the cockpit, and free space it becomes when you are out on the water with friends and family. With walk-about, lay-about, stow-away spaciousness at every turn, the 200 creates its own sort of convenience, comfort, and simple luxury, from the standard digital instrumentation to the wraparound bow to the 89" wide cockpit with the port chaise lounge, the 200 adapts at a touch from tanning salon to a safe, secure seating environment.

The 200 goes down to the sea trailerable, in strength, with dashing style. The sculpted hull speaks for itself, while the long, purposeful lines sweep and flow to catch a perfect light, the 200's a profile classic in every subtle detail.
